## CAREER EXPLORATION WORKSHOP

## Calling all Scottish teachers!

**Scotland's energy job sector is growing, offering exciting opportunities for young people.**

But what careers are available? What skills do students need? And how do they get started?

Field, in collaboration with the National Schools Partnership, has developed the Power Up: Career Exploration Workshop for students aged 16 to 18. The teacher-led content is engaging and easy to run.

You don't need to be a STEM teacher or a specialist to lead the session, just download the free pack and you're ready to go.

**The pack includes:**

**CLASS  
POWERPOINT**

**CHALLENGE BRIEFING  
PACK FOR STUDENTS**

**TEACHER  
DELIVERY GUIDE**

**TAKEAWAY  
MATERIALS**

Using the free resources, you'll be able to teach an in-depth session on green careers and the variety of jobs available across the Scottish renewables industry. **Download the pack here:**
